

ABSTRACT

APPLYING COLOUR ELEMENTS AND BUSBARS TO A DISPLAY SUBSTRATE

- 5 A method of applying to a display substrate (13) colour
elements (9, 10, 11) and addressing busbars (8) in a defined
alignment relative to each other comprises:
forming said colour elements (9, 10, 11) and said
busbars (8) on a surface of a transfer carrier (1);
10 adhering said colour elements (9, 10, 11) and said
busbars (8) to said display substrate (13); and
removing said transfer carrier (1).
